Microsoft Power Platform

Power Platform Licensing Deck

April 2024

About this presentation

This deck provides an overview of Power Apps, Power Automate, Copilot Studio, Power Pages, Dataverse and AI Builder product licensing. Users should take care to always use the current version of the deck for the most up-to-date information.

Power Platform: Recommended Offers

Power Platform

Recommended offers

Power Apps

Application Development

Premium

$20 per user / month

Power Automate

Workflow Automation

Premium

$15 per user / month

Process

$150 per bot / month

Copilot Studio

Build Copilots

Per tenant capacity

$200 for 25,000 messages per tenant/month

Power Pages

Web App Development

Capacity packs

Tier 3 (100k+ users): $50 for 100 Authenticated users / month or $25 for 500 Anonymous users / month

For Power BI licensing information, refer to Power BI License Types and Capabilities.

Power Platform: Product Licensing

Power Apps

Power Apps

RECOMMENDED MOTION

Power Apps Premium

- Entitles user to unlimited apps and Power Pages websites
- $20 per user (or $12 per user w/2,000+ new licenses)

Build, modernize, and deploy unlimited applications for your team, department, or entire organization.

Best for businesses that want one license for users, regardless of the number of apps they need to run or websites they access

Power Apps per app

- Entitles user to 1 app or Power Pages website
- $5 per user/month

Best for businesses that want to license users for each app they run or website they access, with the flexibility to stack licenses for additional apps and websites.

Power Apps per app pay-as-you-go meter

- Entitles user to 1 app
- $10 per active user per app/month

Best for businesses that want to pay-as-you-go for only the users who access a Power App one or more times in a month

Power Apps and Power Automate for Dynamics 365 and Microsoft 365/Office 365 allow users to customize and extend Microsoft/Office 365 and Dynamics 365 applications.

All pricing subject to change, please consult price list for actual pricing.

Summary of Power Apps

Plans	Capabilities	Power Apps subscription RECOMMENDED MOTION **Power Apps Premium** $20 per user/month (or $12 per user/month with 2K+ new per user licenses)	Power Apps subscription **Power Apps per app** $5 per user/month	Power Apps per app pay-as-you-go **Power Apps per app meter**[1] $10 per active user/app/month	Power Apps use rights included with: **Select Dynamics 365 Pro and Ent. licenses**[2]	Power Apps Basic **Use rights with select Microsoft 365/Office 365 licenses**
Power Apps	Run custom apps	Unlimited apps	1 app **or** 1 website	1 app	Within same environ. as licensed D365 application(s)	Unlimited
	Run custom Power Pages websites	Unlimited websites				
	Run workflows within the custom app[3]	●[4]	●[4]	●[4]	●[4]	●
AI Builder	Service credits[5]	500 credits	250 credits			
Power Platform connectors	Standard connectors	●	●	●	●	●
	Premium and custom connectors	●	●	●	●	
	On premises and cloud services data transfer	●	●	●	●	
Dataverse	Full Dataverse access	●	●	●	●	Dataverse for Teams only
	Create and access custom tables[6,7]	●	●	●	Pro limited to 15 per app	
	Dataverse Database capacity (Accrued)	250 MB[8]	50 MB[8]	1 GB[9]		
	Dataverse File capacity (Accrued)	2 GB[8]	400 MB[8]	1 GB[9]		
Managed Environments	Admin and governance at scale[10]	●	●		●[4,11]	

[1] Environments that are configured to use Power Platform pay-as-you-go, receive a one-time entitlement of 1 GB of Dataverse Database capacity and 1 GB of Dataverse File capacity per environment. Additional Dataverse Database, Dataverse File and Dataverse Log capacity can be purchased in increments of 1 GB.
[2] Dynamics 365 Pro does not have use rights for Power Apps or Power Pages
[3] Power Automate use rights included with Power Apps do not include RPA functionality, which requires a separate purchase of Power Automate Premium.
[4] Within app context
[5] Cap on accrued capacity: 1,000,000 credits per tenant. For more AI Builder service credits, use the AI Builder capacity add-on.
[6] For Power Apps use rights with restricted tables and exceptions for case tables, see Restricted tables requiring Dynamics 365 licenses.
[7] For exceptions to Dynamics 365 Field Service use rights for Power Apps users, refer to the Dynamics 365 Licensing Guide.
[8] Dataverse Database and Database File capacity entitlements accrue at the tenant level. Additional Dataverse Database, Dataverse File and Dataverse Log subscription capacity can be purchased in increments of 1 GB via the Dataverse capacity add-ons.
[9] Dataverse Database and Dataverse File pay-as-you-go capacity is pooled at the environment level. Additional Dataverse Database, Dataverse File and Dataverse Log subscription capacity can be purchased in increments of 1 GB
[10] When Managed Environments is activated in a specific environment, all Power Apps, Power Automate, Copilot Studio, and Power Pages usage in that environment requires standalone licenses. Please review Power Platform Managed Environments for more details.
[11] Managed Environments is not included with Dynamics 365 Pro licenses.

All pricing subject to change, please consult price list for actual pricing.

Power Automate

Power Automate

RECOMMENDED MOTION Power Automate Premium	RECOMMENDED MOTION Power Automate Process	Process Mining (PM)	Power Automate Hosted RPA add-on	Power Automate per flow	Power Automate per user	Power Automate unattended RPA add-on
$15 per user/month[1]	$150 per bot/month[2]	$5,000 per 100 GB of PM data stored /month[3]	$215 per bot/month[2]	$100 per flow/month[2] (Minimum initial purchase of 5 licenses)	$15 per user /month[1]	$150 per bot/month[2]
Enables licensed users to automate modern applications via API-based digital process automation (cloud flows) and legacy applications via UI-based attended robotic process automation, (attended RPA)	Licenses a single 'automation' bot that can be used for unattended robotic process automation (unattended RPA), OR cloud flows using digital process automation (DPA), and can be accessed by unlimited users in the organization	Capacity based license that enables rapid ROI for customers by identifying critical optimization opportunities and improving existing processes. Add-on to Power Automate Premium	Add-on to Power Automate Premium that allows users to run robotic process automation (RPA) as a service with hosted machine options	Best for businesses that want to implement flows with reserved capacity for unlimited users across an organization	Best for businesses that want to license individual users to create unlimited cloud flows	Add-on to Power Automate Premium or Power Automate per flow that enables a bot to run autonomously on a local remote desktop or virtualized environment.

[1] Per tenant/month, one license allows user or capacity to use in any environment in the tenant.
[2] Per environment/month, one license allows the bot or process to be used in a single environment. An additional license is required if the same bot or process is deployed in a different environment.
[3] Per 100 GB of PM data stored per tenant/month, capacity-based license/tenant.
[4] Flow runs per pay-as-you-go environment/month

All pricing subject to change, please consult price list for actual pricing.

Summary of Power Automate

Plans	Capabilities	Power Automate subscriptions					Power Automate add-ons		Power Automate use rights included with:			Power Automate Basic
		RECOMMENDED MOTION Power Automate Premium $15 per user/month[1]	RECOMMENDED MOTION Power Automate Process $150 per bot/month[2]	Power Automate Process Mining (PM)[3] $5,000 per 100 GB of PM data stored/mo.[4]	Per user $15 per user/month[1]	Per flow $100 per flow/mo.[2] (Minimum purchase 5 licenses)	Hosted RPA add-on[5] $215 per bot/mo.[2]	Unattended RPA add-on[5] $150 per bot/month[2]	Power Apps	Select D365 licenses	Windows	Use rights with select M365/O365 licenses
Power Automate[6]	Cloud flows (Automated, instant, and scheduled flows)	●	●		●	●		●	●[7]	●[7]		●
	Business process flows	●	●		●	●		●	●[7]	●[7]		
	Attended desktop flows	●									●[8]	
	Unattended desktop flows		●				●	●				
Process Mining	Task Mining	●		●								
	Cloud flows process mining integration	●		●								
	Visualize and analyze processes	●[9,10]		●	●							
Share and collaborate	Other users can view, edit, or run automations	●			●				●	●		●
Power Platform connectors	Standard connectors	●	●		●	●			●[7]	●[7]		●
	Premium and custom connectors	●[11]	●[11]		●	●[11]			●[7]	●[7]		
	On prem & cloud svcs. data transfer	●	●		●	●			●[7]	●[7]		
AI Builder	Service credits[12]	5,000	5,000				5,000	5,000				
Dataverse	Dataverse use rights	●	●		●	●			●[7]	●[7]		Within Teams only
	Database capacity (Accrued)	250 MB[13]	50 MB[13]	2 GB[13]	250 MB[13]	50 MB[13]						
	File capacity (Accrued)	2 GB[13]	200 MB[13]	1 TB[13]	2 GB[13]	200 MB[13]						
Managed Environments	Admin. and governance at scale[14]	●	●		●	●			●	●[7,15]		

[1] Per tenant/month, one license allows user or capacity to use in any environment in the tenant.
[2] Per environment/month, one license allows the bot or process to be used in a single environment. An additional license is required if the same bot or process is deployed in a different environment.
[3] Process Mining qualifying prerequisite: Power Automate Premium. Multiple add-ons can be applied against a single qualifying prerequisite license.
[4] Per 100 GB of PM data stored per tenant/month, capacity-based license/tenant.
[5] Qualifying prerequisites: Hosted RPA - Power Automate Premium, Power Automate Process and Power Automate per flow. Unattended RPA add-on - Power Automate Premium and Power Automate per flow. Multiple add-ons can be applied against a single qualifying prerequisite license.
[6] See technical documentation for definitions of each flow type.
[7] Within app context. For both triggers and actions, flows within an embedding app, can connect to any data source within the use rights of the embedding application and directly with the embedding application
[8] Via Power Automate desktop only; a free application not intended for business-critical functions, with no SLA or Microsoft support. cloud flows, standard/premium connectors, orchestration (scheduled or automatic triggers for desktop flows, attended or unattended, combine cloud flows + desktop flows in a single automation), sharing desktop flows, developing in a different environment than the default, Automation Lifecycle Management (ALM), monitoring, execution logs are not included.
[9] The Power Automate Premium license includes the Process Mining desktop app with advanced analytics and optional Power BI customization with a separate purchase of Power BI. Process Advisor that comes with Power Automate Premium licenses includes out of the box process mining capabilities (pre-built templates) with very limited customization.
[10] 50 MB of Process Mining data storage per user license, cap on accrued capacity: 100 GB per tenant.
[11] Desktop flow connector is included. (This desktop flow connector is not included in Windows licenses.)
[12] Cap on accrued capacity 1,000,000 credits per tenant. Additional AI Builder capacity can be purchased per 1M service credits for $500/month via the AI Builder capacity add-on.
[13] Dataverse Database and File subscription capacity is pooled at the tenant level. Additional Dataverse Database, Dataverse File and Dataverse Log subscription capacity can be purchased in increments of 1 GB.
[14] When Managed Environments is activated in a specific environment, all Power Apps, Power Automate, Copilot Studio, and Power Pages usage in that environment requires full licenses.
[15] Managed Environments is not included with Dynamics 365 Pro licenses. Please see Power Platform Managed Environments for details.

All pricing subject to change, please consult price list for actual pricing.

Microsoft Copilot Studio

Copilot Studio

RECOMMENDED OFFER

Copilot Studio

$200 per tenant/month
Tenant-wide capacity license sold in capacity packs.
1 capacity pack = 25,000 messages/month

Offer Details

- Gen AI: AI-enabled conversations
- Copilot in Microsoft Copilot Studio: Create and iterate on chatbot topics using expanded natural language capabilities
- Power Automate for Microsoft Copilot Studio: Cloud flows – Create automated, instant and scheduled flows within context of Microsoft Copilot Studio bots
- Connectors: Standard, Premium and Custom connectors
- Dataverse for Microsoft Copilot Studio: Dataverse Default Capacity
  - 5 GB Database Capacity
  - 20 GB File Capacity
  - 2 GB Log Capacity

All pricing subject to change, please consult price list for actual pricing.

Summary of Copilot Studio

Plans	Copilot Studio Subscription RECOMMENDED MOTION **Copilot Studio** **$200 per tenant/month**	Copilot Studio use rights with Copilot for Microsoft 365 **Copilot Studio in Copilot for Microsoft 365** Use rights with Copilot for Microsoft 365 licenses $30 per user/month	Copilot Studio use rights included with: **Copilot Studio for Teams (was PVA for Teams)** Use rights included with select M/O365 licenses
Messages/tenant/month	25,000 Messages [1]	Unlimited	Unlimited [2] (Teams only)
Gen AI: AI-enabled conversations	● [3, 4]	●	
Create and Publish your own standalone copilot	●		
Create and publish plugins to customize Copilot for Microsoft 365		●	
Create and iterate on copilot topics using expanded natural language capabilities [5]	●		●
Power Automate for Copilot Studio cloud flows (Automated, instant, and scheduled flows) within the context of Copilot Studio creations	●	●	
Standard Power Platform connectors	●	●	●
Premium and Custom Power Platform connectors	●	●	
On premises and cloud services data transfer for Power Platform Connectors	●	●	
Dataverse for Copilot Studio	● [6]	● [6]	Dataverse for Teams
Managed Environments	● [7]		
The output you create is...	Your own standalone copilot	Plugins for Copilot for Microsoft 365	Teams chatbot
Available channels to publish your copilot/plugins	External channels (e.g., External Web, FB, WhatsApp etc.) Internal Channels (e.g., Internal Web, Teams, etc.)	Copilot for Microsoft 365 only	Teams channel/chat only

[1] Copilot Studio messages are the common currency across Copilot Studio capabilities. A billed message is a request or message sent to the copilot triggering an action and/or response. Examples: a) User asks copilot when a store is open, and copilot replies with store hours = 1 billed message b) Copilot proactively greets the user on a website = 1 billed message, c) User asks copilot for store hours for the upcoming holiday, copilot responds using GenAnswers = 2 billed messages

[2] A service limit applies, see Quotas, limits, and configuration values for more information.

[3] Message Consumption rates: 1) Regular (Non-generative AI) = 1 message, 2) Generative AI (Gen AI) answers over your data = 2 messages. Customers can use a mix of regular and Generative AI messages.

[4] More information on Generative Answers capability can be found here.

[5] See Create with Copilot.

[6] Dataverse for Copilot Studio default capacities: Dataverse Database 5 GB, Dataverse File 20 GB, Dataverse Log 2 GB

[7] When Managed Environments is activated in a specific environment, all Power Apps, Power Automate, Copilot Studio, and Power Pages usage in that environment requires full licenses.

Note: A Copilot Studio User License ($0) is required for each user authoring bots with Copilot Studio. We recommend acquiring the tenant license and user licenses as part of a single transaction to simplify onboarding to Copilot Studio.

All pricing subject to change, please consult price list for actual pricing.

Power Pages

Power Pages

RECOMMENDED MOTION

Power Pages Authenticated users

This subscription license can be purchased for the anticipated number of unique, authenticated users accessing a website in a month.

Sold in capacity packs with tiered pricing (100 users per capacity pack)

Capacity Packs	Minimum Purchase	Number of users	Price/month
Tier 1	1 capacity pack	100+ users	$200
Tier 2	100 capacity packs	10,000+ users	$75
Tier 3	1,000 capacity packs	100,000+ users	$50

Best for businesses that want to allow users to access low-code business websites securely with authenticated access and have predictable licensing

RECOMMENDED MOTION

Power Pages Anonymous users

This subscription license can be purchased for the anticipated number of anonymous users accessing a website in a month.

Sold in capacity packs with tiered pricing: (500 users per capacity pack)

Capacity Packs	Minimum Purchase	Number of users	Price/month
Tier 1	1 capacity pack	500+ users	$75
Tier 2	20 capacity packs	10,000+ users	$37.50
Tier 3	200 capacity packs	100,000+ users	$25

Best for businesses that want to allow viewers to access low-code business websites anonymously and have predictable licensing

Power Pages Authenticated users pay-as-you-go meter

This pay-as-you-go meter measures the number of unique authenticated users accessing a website in a month.

$4 per user

Best for businesses that want to use an Azure subscription to pay for the number of unique users who authenticated on a website

Power Pages Anonymous users pay-as-you-go meter

This pay-as-you-go meter measures the number of anonymous users accessing a website in a month.

$0.30 per user

Best for businesses that want to use an Azure subscription to pay for the number of anonymous users who browsed a website

All pricing subject to change, please consult price list for actual pricing.

Summary of Power Pages

		Power Pages subscriptions		Power Pages pay-as-you-go		Power Pages use rights included with:		
Plans	Capabilities	RECOMMENDED MOTION Power Pages Authenticated users Tier 3 (100k+ users) - $50/pack	RECOMMENDED MOTION Power Pages Anonymous users Tier 3 (100k+ users) - $25/pack	Power Pages Authenticated users pay-as-you-go meter[1]	Power Pages Anonymous users pay-as-you-go meter[1]	Power Apps per app	Power Apps Premium	Select D365 Enterprise licenses
Power Pages	Create, access, host and administer websites	●	●	●	●	1 app or 1 website	●	Within same environ. as licensed D365 app

	Create and access custom tables and complex tables[2]	●	●	●	●	●	●	●
	Dataverse Database capacity (Accrued)	2 GB[3]	500 MB[3]			50 MB[4]	250 MB[4]	
	Dataverse File capacity (Accrued)	16 GB[3]	4 GB[3]			400 MB[4]	2 GB[4]	
Managed Environments	Admin and governance at scale[5]	●	●			●	●	Within app context

[1] Environments that are configured to use Power Platform pay-as-you-go, receive a one-time entitlement of 1 GB of Dataverse Database capacity and 1 GB of Dataverse File capacity per environment. Additional Dataverse Database, Dataverse File and Dataverse Log subscription capacity can be purchased in increments of 1 GB.

[2] For Power Pages use rights with restricted tables and exceptions for case tables, see Restricted tables requiring Dynamics 365 licenses.

[3] Per capacity pack

[4] Per license capacity

[5] When Managed Environments is activated in a specific environment, all Power Apps, Power Automate, Copilot Studio, and Power Pages usage in that environment requires standalone licenses. Please see Power Platform Managed Environments for details.

All pricing subject to change, please consult price list for actual pricing.

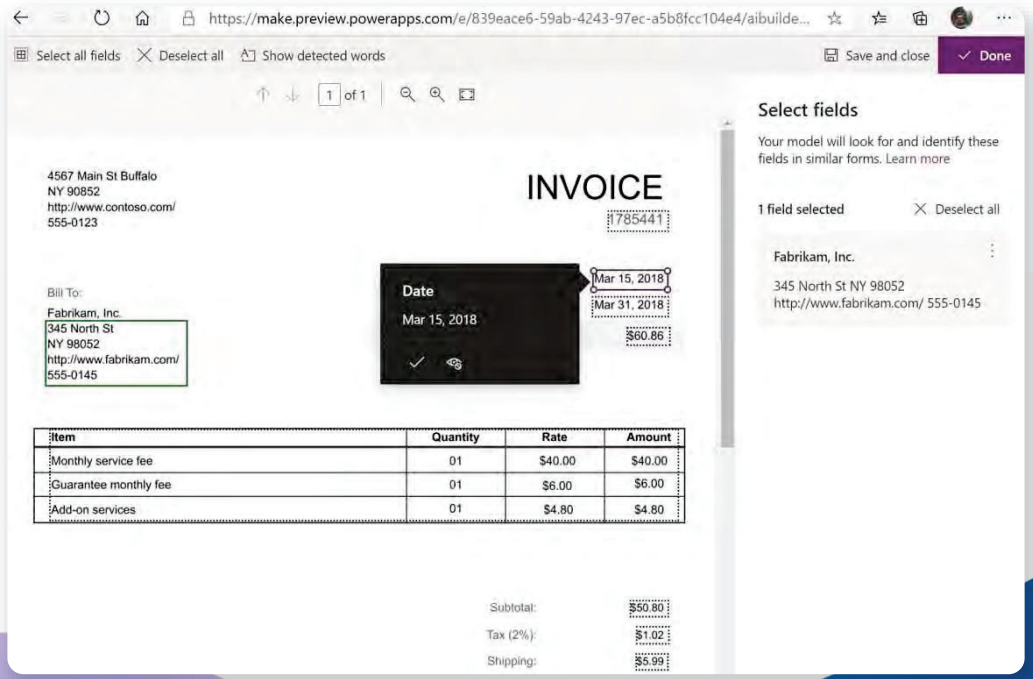

AI Builder

AI Builder

Build, train, and publish AI models without a single line of code or the help of a data scientist.

- Build AI models in minutes with guided "point and click" wizards
- Customizable for broad range of industries
- Part of the Power Platform and Dynamics 365 so you can leverage your AI models anywhere and build robust, dynamic automations.

Licensing Overview

AI Builder is licensed as a capacity add-on to select Power Apps, Power Automate and Dynamics 365 licenses. AI Builder capacity is expressed in the form of "service credits." Service credits serve as the single (common) currency. Different scenarios (for example, forms processing, prediction, etc.) burn down service credits at different rates.

AI Builder Capacity Add-On

AI Builder capacity add-on	
Offer name	AI Builder capacity add-on
License type	Tenant wide capacity license sold in capacity packs
Entitlement	Each pack includes 1,000,000 service credits
Pricing	The AI Builder add-on is sold in capacity packs with tiered pricing.
What are service credits?	• Common currency across AI Builder capabilities • Usage of AI Builder services consumes purchased service credits
Qualifying base licenses (prerequisites)	Power Apps Premium, Power Apps per app, Power Automate Premium, Power Automate Process, Power Automate hosted RPA add-on, Power Automate unattended RPA add-on and Dynamics 365 Finance.

AI Builder Capacity Packs

Tier 1
$500 minimum 1 capacity pack

Tier 2
$375 minimum 10 capacity packs

Tier 3
$250 minimum 50 capacity packs

Estimating # of units to purchase

A calculator is available to help estimate AI Builder Capacity add-on units to be purchased based on the anticipated usage of various AI Builder services.

All pricing subject to change, please consult price list for actual pricing.

AI Builder Entitlements with Power Platform and Dynamics 365

Select Power Platform and Dynamics 365 licenses include AI Builder service credits.

Power Apps subscription licenses		AI Builder service credits entitlement[1]
Power Apps	Power Apps Premium	500 service credits / month
	Power Apps per app	250 service credits / month

Power Automate subscription licenses		AI Builder service credits entitlement[1]
Power Automate	Power Automate Premium	5,000 service credits / month
	Power Automate Process	5,000 service credits / month
	Power Automate hosted RPA add-on	5,000 service credits / month

Dynamics 365 subscription license		AI Builder service credits entitlement
Dynamics 365	Dynamics 365 Finance	20,000 AI Builder service credits / month

[1] Cap on AI Builder accrued capacity for Power Apps and Power Automate: 1M AI Builder service credits / tenant. Additional AI Builder capacity can be purchased per 1M service credits for $500/month via the AI Builder capacity add-on. More information on integrating AI Builder with Power Apps and Power Automate is available here.

AI Builder Rate Card

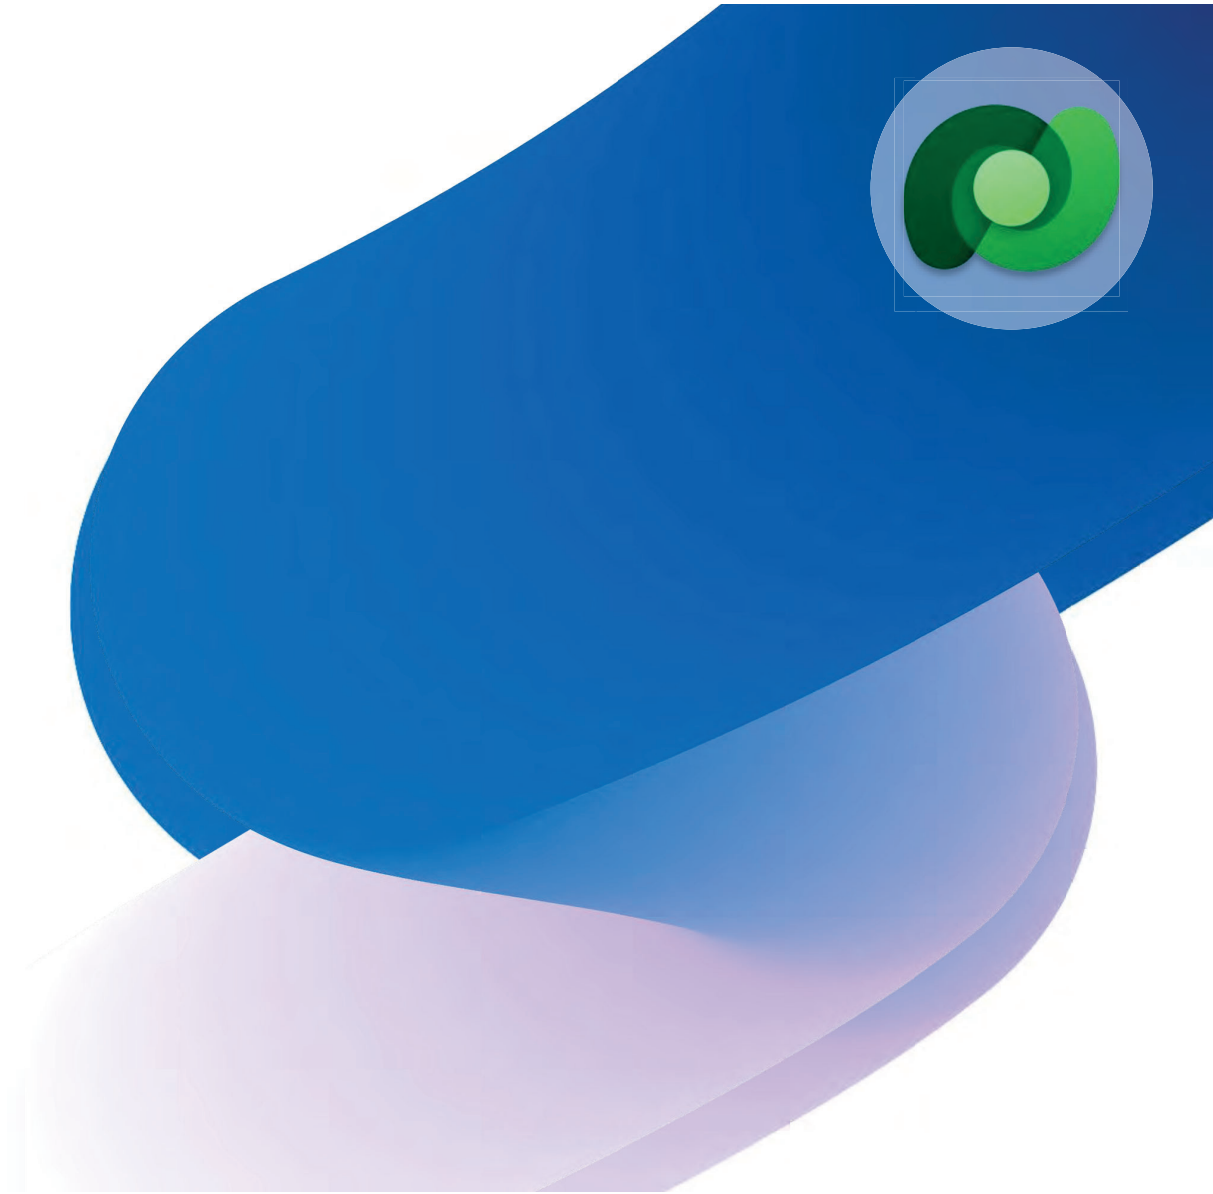

Capability	Operation	Type	Service Credit Consumption Rate	$ Equivalent Price per Operation*
Business Card reader	Real-time Prediction	Prebuilt	32 credits/Card	$0.016 / Card
Document processing	Training	Custom	Free	
	Real-time Prediction	Custom	100 credits/Page	$0.05 / Page
Identity document reader	Real-time Prediction	Prebuilt	32 credits/Page	$0.016 / Page
Invoice processing	Real-time Prediction	Prebuilt	32 credits/Page	$0.016 / Page
Object detection	Training	Custom	20 credits/Image (standard - first 500 images) 160 credits/Image (domains - first 500 images) 10 credits/Image (after 500 images)	$0.01 / Image (standard - first 500 images) $0.08 / Image (domains - first 500 images) $0.005 / Image (after 500 images)
	Real-time Prediction	Custom	8 credits/Image (standard and domains)	$0.004 / Image
Prediction	Training	Custom	Free	
	Scheduled Prediction	Custom	1 credit/5 rows	$0.0005 / 5 rows
	Real-time Prediction	Custom	10 credits/1 row	$0.005 / 1 row
Receipt Processing	Real-time Prediction	Prebuilt	32 credits/Page	$0.016 / Page
Create text with GPT, AI prompts and other GptPowerPrompt scenarios	Real-time Prediction	Prebuilt	16 credits/1k tokens[1]	$0.008/1k tokens
Text Analysis Category classification, Entity extraction	Training	Custom	Free	
	Real-time Prediction	Custom	20 credits/1k chars	$0.01 / 1k chars
	Real-time Prediction	Prebuilt	20 credits/1k chars	$0.01 / 1k chars
Text Analysis Key phrase extraction, Language detection, Sentiment analysis	Real-time Prediction	Prebuilt	2 credits/1k chars	$0.001 / 1k chars
Text recognition	Real-time Prediction	Prebuilt	3 credits/Image	$0.0015 / 1k chars
Text translation	Real-time Prediction	Prebuilt	22 credits/1k chars	$0.0011 / 1k chars
Image classification	Training	Custom	Free (performed on-premises)	
	Real-time Prediction	Custom	4 credits/Image	$0.002 / Image

[1] This includes both input tokens (customer + system prompts) and output tokens (result). For common English text, 1000 tokens = ~700 words. See https://platform.openai.com/tokenizer

*Disclaimer: $ equivalent price per operation shown only for guidance based on List Price. AI Builder is purchased via the AI Builder capacity add-on (AI Builder capacity per 1M service credits for $500/month)
A calculator is available to help estimate AI Builder Capacity add-on units to be purchased based on the anticipated usage of various AI Builder services. Administrators can download an Excel capacity consumption report for the tenant here.

All pricing subject to change, please consult price list for actual pricing.

Dataverse

Dataverse Capacity Add-ons

Overview

Dataverse is a SaaS **data platform** for all Power Platform products and Dynamics 365 applications, **supporting both low-code and pro-code development.**

It is a fully managed low-code cloud data platform to easily structure data, events, logic, and insights to enable interconnected applications and processes in a secure and compliant manner.

Dataverse capacity types and purposes

Capacity type	Purposes	Capacity add-ons (subscriptions)
Dataverse Database	Stores table definitions, data, and generates analytics and insights. Each unit increases available tenant wide shared capacity by 1 GB.	ERP (USD): $40 / 1 GB per month
Dataverse File	Stores attachments to notes or emails in Dynamics Sales, Customer Service, and Field Service applications and Power Apps. These include documents, image files, videos, PDF files and other crucial files needed in an organization. Each unit increases available tenant wide shared capacity by 1 GB.	ERP (USD): $2 / 1 GB per month
Dataverse Log	Records table and column data changes over time for sure in analysis and reporting purposes. Log capacity is designed to help organizations meet their auditing, compliance, and governance policies. Each unit increases available tenant wide shared capacity by 1 GB.	ERP (USD): $10 / 1 GB per month

All pricing subject to change, please consult price list for actual pricing.

Dataverse capacity

Power Platform standalone licenses include Dataverse capacities.

- **Default capacity** - A tenant's one-time Dataverse default capacity entitlement is equal to the Dataverse default capacity entitlement for first Power Apps, Power Automate, Microsoft Copilot Studio or Power Pages subscription license purchased. Additional subscriptions do not add to the tenant's default capacity.

- **Accrued capacity** - Accrued capacity is added to the tenant for every Power Apps, Power Automate and Power Pages standalone subscription license purchased. This accrued capacity is pooled across the tenant and shared amongst relevant application workloads.

- **Dataverse capacity add-ons** - Additional capacity can be added via the Dataverse capacity add-ons. Subscription add-ons apply across the tenant and are not tied to a specific user.

Power Apps and Dataverse capacity

RECOMMENDED MOTION Power Apps Premium	Default Entitlement per tenant	Accrued Entitlement per user
Dataverse Database capacity	10 GB	250 MB
Dataverse File capacity	20 GB	2 GB
Dataverse Log capacity	2 GB	N/A

Power Apps per app	Default Entitlement per tenant	Accrued Entitlement per app
Dataverse Database capacity	5 GB	50 MB
Dataverse File capacity	20 GB	400 MB
Dataverse Log capacity	2 GB	N/A

Pay-as-you-go environments[1]	Default Entitlement per pay-as-you-go environment	Accrued Entitlement per app
Dataverse Database capacity meter	1 GB	N/A
Dataverse File capacity meter	1 GB	N/A
Dataverse Log capacity meter	N/A	N/A

[1] When an environment becomes enabled for pay-as-you-go and is linked to an Azure subscription, Dataverse capacity meters let you pay-as-you-go for your Dataverse storage usage.
Dataverse meter definitions: Amount of capacity used in the environment beyond any entitled amounts (1 GB database capacity and 1 GB of file capacity per environment. No capacity is allocated for Dataverse Logs).
Additional Dataverse Database, Dataverse File and Dataverse Log subscription capacity can be purchased in increments of 1 GB.

Power Automate and Dataverse capacity

RECOMMENDED MOTION Power Automate Premium	Default entitlement per tenant	Accrued entitlement per user
Dataverse Database capacity	10 GB	250 MB
Dataverse File capacity	20 GB	2 GB
Dataverse Log capacity	2 GB	N/A

RECOMMENDED MOTION Power Automate Process	Default entitlement per tenant	Accrued entitlement per user
Dataverse Database capacity	5 GB	50 MB
Dataverse File capacity	2 GB	200 MB
Dataverse Log capacity	200 MB	N/A

Power Automate Process Mining add-on	Default entitlement per tenant	Accrued entitlement per user
Dataverse Database capacity	N/A	N/A
Dataverse File capacity	N/A	N/A
Dataverse Log capacity	N/A	N/A

Power Automate Hosted RPA add-on	Default entitlement per tenant	Accrued entitlement per flow
Dataverse Database capacity	N/A	N/A
Dataverse File capacity	N/A	N/A
Dataverse Log capacity	N/A	N/A

Additional Dataverse Database, Dataverse File and Dataverse Log subscription capacity can be purchased in increments of 1 GB.

Dataverse for Copilot Studio

RECOMMENDED MOTION Dataverse for Copilot Studio	Default Entitlement per tenant	Accrued Entitlement per capacity pack
Dataverse Database capacity	5 GB	N/A
Dataverse File capacity	20 GB	N/A
Dataverse Log capacity	2 GB	N/A

Additional Dataverse Database, Dataverse File and Dataverse Log subscription capacity can be purchased in increments of 1 GB.

Power Pages and Dataverse capacity

RECOMMENDED MOTION Power Pages Authenticated users capacity pack	Default entitlement per tenant	Accrued entitlement per capacity pack
Dataverse Database capacity	5 GB	2 GB
Dataverse File capacity	N/A	16 GB
Dataverse Log capacity	N/A	NA

RECOMMENDED MOTION Power Pages Anonymous users capacity pack	Default entitlement per tenant	Accrued entitlement per capacity pack
Dataverse Database capacity	5 GB	500 MB
Dataverse File capacity	N/A	4 GB
Dataverse Log capacity	N/A	N/A

Pay-as-you-go environments[1]	Default entitlement per pay-as-you-go environment	Accrued entitlement per user
Dataverse Database capacity	1 GB	N/A
Dataverse File capacity	1 GB	N/A
Dataverse Log capacity	N/A	N/A

[1] When an environment becomes enabled for pay-as-you-go and is linked to an Azure subscription, Dataverse capacity meters let you pay-as-you-go for your Dataverse storage usage.
Dataverse meter definitions: Amount of capacity used in the environment beyond any entitled amounts (1GB Dataverse Database capacity and 1GB of Dataverse File capacity per environment. No capacity is allocated for Dataverse Logs)
Additional Dataverse Database, Dataverse File and Dataverse Log subscription capacity can be purchased in increments of 1 GB.

Benefits of Support Add-ons

This chapter provides a brief look at the additional support add-on options. For For full feature descriptions, see **Power Platform Licensing Guide**.

Benefits of Support Add-ons

The benefits included in the Subscription Support Plan are applicable for customers who license Power Platform solutions via MOSP, EA, MPSA, EAS, and EES.

Learn more about Power Apps, Power Automate, Microsoft Copilot Studio, Power Pages and Dynamics 365 support options:

- Professional Direct support for Power Platform and Dynamics 365
- Unified Support (for Enterprise solutions)

SKU Name	Description	Price/month	Licensed
Professional Direct Support for Dynamics 365 and Power Platform	ProDirect Support Subs Per User for D365 and Power Platform	$9	User*

* Customer must acquire enough Professional Direct Support licenses to cover each Power Platform and Dynamics 365 license on its agreement, up to a maximum of 250 licenses.

All pricing subject to change, please consult price list for actual pricing.

What's New?

In this chapter we discuss changes to product licensing.

Power Platform Licensing Updates

Date	Description	New offer or change summary
April 2024	Power Apps Basic	Power Apps use rights with qualifying Microsoft/Office 365 licenses renamed “Power Apps Basic”
April 2024	Power Automate Basic	Power Automate use rights with qualifying Microsoft/Office 365 licenses renamed “Power Automate Basic””

For more information refer to the Power Platform Licensing Guide.

Power Platform: Licensing Resources

This chapter provides Power Platform taxonomy and licensing resources information.
For more information refer to the **Power Platform Licensing Guide**.

Taxonomy

Robotic Process Automation (RPA)
Process automation that encompasses the use of an application's graphical user interface (GUI), in which a user records a series of steps/actions/tasks for the automation technology to then perform as a process by repeating directly in the GUI.

RPA robot or "bot"
A GUI-based process running on a desktop or virtualized environment.

Attended bot
- Triggered by an explicit user action on their workstation, i.e., a local or remote desktop.
- Must operate concurrently with the user on the same workstation.
- Can run more than one discrete process, but each process must be serialized to run sequentially.

Unattended bot
- Runs autonomously without requiring user actuation.
- Can be deployed on a local, remote desktop, or other virtualized environment.
- Can run more than one discrete process, but each process must be serialized to run sequentially.
- Concurrent instances of a singular process require an additional unattended bot for each instance.

Digital Process Automation (DPA)
Digital Process Automation (DPA) is API-based automation in Power Automate that empowers citizen developers to build powerful automation across 370+ native connectors through no-code APIs. This enables streamlining and optimization of systems across people, processes, and technology to put focus on outcomes.

Desktop flow
A feature in Power Automate targeting the RPA market by enabling legacy apps to be automated via GUI vs API.
Processes executed via desktop flows can be contained within a broader API-based automation scenario or exist standalone.

Dataverse
- Dataverse enables the user to store and manage data used by business applications.
- Dataverse for Teams, built atop the Dataverse, delivers a built-in low code data platform for Microsoft Teams providing relational data storage, rich data types, enterprise grade governance, and one-click solution deployment.
- Dataverse is designed to be used in any application (not just Teams) and includes additional security features such as auditing, sharing, field level and hierarchical security. For a detailed comparison on Dataverse for Teams and Dataverse capabilities, please refer to the public documentation here.
